

# YOUR KITTEN IS NOT A CAT—YET

## AND HERE'S WHY SHE HAS DIFFERENT NUTRITIONAL NEEDS

### **KITTENS NEED 2 TO 3X MORE ENERGY THAN ADULT CATS**

ROYAL CANIN® BABYCAT and KITTEN formulas provide concentrated nutrition for kittens' small stomachs and demanding energy needs.

### **KITTENS' IMMUNE SYSTEMS ARE MORE FRAGILE**

ROYAL CANIN® BABYCAT and KITTEN formulas feature an exclusive complex of antioxidants to support kittens' natural defenses.

### **KITTENS' DIGESTIVE SYSTEMS ARE MORE SENSITIVE**

ROYAL CANIN® BABYCAT and KITTEN formulas use a combination of highly digestible, high-quality protein and prebiotics to support her developing digestive system.

### **KITTENS' MUSCLES AND BONES ARE GROWING FAST**

ROYAL CANIN® BABYCAT and KITTEN formulas feature a precise balance of protein, vitamins and minerals to nourish healthy growth.

# TAILORED NUTRITION FOR YOUR KITTEN'S VITAL FIRST YEAR

The nutrients she gets as a kitten become the foundation for her long-term health as a cat. Feed her healthy growth with formulas designed for each stage of kitten development.

There is no other [food] like it on the market! It's nice to know you are raising a healthy kitten/cat with all the nutrients packed in this food!

## KITTEN SPAYED/NEUTERED

After being spayed or neutered, kittens have lower energy requirements and a tendency to become overweight. That's why ROYAL CANIN® KITTEN SPAYED/NEUTERED formula is specially designed to prevent unhealthy weight gain while still supporting kittens' healthy growth.

*Only the best*

 WITTYKITTY, [RoyalCanin.com](https://www.RoyalCanin.com)

I go through this like crazy. Wouldn't put my kittens on anything else. With them being fixed, they tend to get a little chubby as kittens. You want to give them a good start, right? Will only feed them this.
