

Go Green WITH YOUR PETS On **Earth Day** and Every Day

Reduce

- Buy food and supplies in bulk to cut down on packaging.
- Shop local to reduce shipping and transportation.
- Clean up messes with rags instead of paper towels.

Reuse

- Repurpose items into toys: socks, toilet paper rolls, cardboard boxes, dish towels.
- Donate old blankets, towels and toys to local shelters.
- Use leftover drinking water to water plants.

Recycle

- Keep food cans and containers out of landfills – recycle!
- Use those extra plastic shopping bags to scoop poop.
- Choose eco-friendly kitty litter.

Other ways to celebrate:

- Clean green – swap the toxic chemicals for eco-friendly alternatives.
- Walk to the dog park or hiking trails and leave the car at home.
- Spay or neuter to reduce shelter overpopulation.
- Adopt, not shop!

Small changes can make a big difference.
