

THE SCOOP ON LITTER BOX PROBLEMS

DO'S AND DONT'S

Cats can be finicky about their bathroom habits. Here's how to avoid common litterbox faux "paws."

DO

- Scoop at least once daily.
- Wash boxes at least monthly.
- Monitor for problems (changes in quantity, color or odor.)
- Call our hospital if litter box habits change or your cat starts going outside the box. This can indicate an underlying medical issue.

DON'T

- Don't use scented litter.
- Don't use boxes that are too small or hard to access.
- Don't keep boxes in high-traffic areas.
- Don't place boxes near food or water bowls.

**GENERAL
RULE OF PAW:**
Have one
litter box for
each cat,
plus one extra
